Lane MBA, SCRNI|Bon Secours Richmond Administrative Director Neurosciences, Bon Secours Richmond Health System; Dr. Stacey Epps, Executive Medical Director Bon Secours Virginia Neuroscience Institute.*

The American Heart Association/American Stroke Association recognizes [American Stroke Month](#) by focusing on efforts to teach family, friends and coworkers how to recognize the signs of stroke.

This year [The American Heart Association](#) awarded [Bon Secours Richmond Health System](#) the Best Integrated Campaign Award for 2015. The fourth largest and only faith-based health system in Virginia, Bon Secours Virginia provides full range of services to thousands of Virginians through a network of hospitals, primary and specialty care practices, ambulatory care sites and continuing care facilities across the Commonwealth.

Bon Secours is accustomed to taking a leadership role in Neurological care, having established teleneurology initiatives more than five years ago with a goal to have all of its area hospitals joint commission certified. [AcuteCare Telemedicine](#), the leading practice-based provider of Telemedicine services for hospitals seeking around-the-clock stroke and other urgent Neurological care is [collaborating](#) with Bon Secours Neuroscience Institute (BSNI), the neuroscience division at the not-for-profit Catholic health system sponsored by Bon Secours Ministries.

[Dr. Keith Sanders](#), Partner, AcuteCare Telemedicine, comments, “ACT is aligned with Bon Secours and its ongoing commitment to utilizing the finest and latest technology for the treatment of stroke. This award is evidence of their outstanding efforts to promote a fully integrated stroke program that improves awareness of the dangers of stroke and provides the best in acute stroke care to the communities we serve.”
